## Field Rules

Revised: March 20, 2009

1. Radio control flying only is permitted.
2. A club member must accompany guests. A guest is a person who has not been a member of the NRMFC for one year. A maximum of three guest visits per membership year will be permitted. (Invitational fly-ins not included)
3. All fliers must have a valid M.A.A.C. membership. (Or equivalent)
4. Mufflers are required on all engines over 0.052 cu. in.
5. Channel identification is required on all 72 MHz transmitter antennas.
6. A frequency pin clearly showing the flier's frequency channel and name must be in place on the frequency board whenever a transmitter is turned on. When the transmitter is not in use, the frequency clip must be removed from the frequency board.
7. Frequency pins must only cover the frequency in use, which means that all transmitters must transmit narrow band or 2.4 GHz.
8. No taxiing in the pit area.
9. No flying over the pit, spectator or parking areas.
10. Modellers shall have the current club and M.A.A.C. membership cards available when flying.
11. In consideration of our neighbours, no running of internal combustion engines is permitted before 9:00 am on Monday to Saturday inclusive and not before 9:30 am on Sunday.
12. (a). A NO-FLY ZONE has been designated north of the Brock field so that no flying takes place anywhere over the Brock baseball diamonds and parking area.  
(b). No flying over the property north of the Brock field when people are working in the area.
13. A NO-FLY ZONE has been designated over the neighbour's property and horse pasture to the east of the Walker's field.
14. An approved club instructor must check out all new members claiming to have their wings before they will be allowed to fly on their own.
15. Students (without wings) may only fly with an approved club instructor using a buddy box until he/she has met the NRMFC Inc. wings requirements as outlined in the training manual.
16. Members will also adhere to the M.A.A.C. safety code. (found at [www.maac.ca](http://www.maac.ca))
